

Linz Algebra Research Day (LARD)
December 10, 2024
RISC, Seminar room Castle, Hagenberg

09:00-09:15: Manuel Kauers: Flip Graphs for Polynomial Multiplication

09:15-09:30: Nikolai Fadeev: Generalized asymptotic expansions

09:30-09:45: Jose Capco: Questions on set-theoretic complete intersection of curves

09:45-10:00: break

10:00-10:15: Ralf Hemmecke: Buchberger Steps Samba

10:15-10:30: Niels Lubbes: Univariate linear factors of bivariate quaternionic polynomials

10:30-10:45: Jakob Obrovsky: Hypergeometric and d'Alembertian solutions for coupled recurrence systems

10:45-11:00: break

11:00-11:15: Josef Schicho: Mitsubishi is not classifiable

11:15-11:30: Audie Warren: The Genus of Linkages via Tropical Geometry

11:30-11:45: Manfred Buchacher: Some problems in algebraic dynamics
